

DECORATIVE ENTRYWAYS

**DoorLights • SideLights • Transoms • Internal Muntins • Octagons
Breakthrough® Resistant DoorLights • Maintenance-Free Frames**

3100 SM & 3026SM

In 1964 RSL began a tradition of manufacturing doorlights with exceptional attention to product quality and customer service. Today we are extremely proud to be able to continue that reputation of excellence! This Decorative Entryways brochure clearly indicates our commitment to "Quality by Design".

We understand that homeowners value privacy, beauty and security at their front door...so, we have created a wide selection of elegant decorative doorlights, sidelights, octagons and transoms. Our craftsmen blend pride, technology, creativity and manufacturing precision to offer customers around the world the most attractive and energy efficient doorlights possible.

The custom glass option gives you the choice of 16 different glass colors and patterns to create the perfect look to enhance any entryway. Pick any brass series style and tell us what glass you want and where you want it. (See page 25.)

All RSL decorative doorlights can be given ultimate security with the Protector BreakThrough® Resistant glass feature. This unique lamination, added to the exterior glass, offers protection from storms and attempts at forced entry while increasing the energy efficiency of any home.

RSL's decorative frames offer a maintenance free

option, which has a lifetime warranty against yellowing and warping. This product innovation allows customers to paint doorlights or leave them in their original color and has high heat resistance so that they can be used behind a storm door.

RSL is a proud partner in the Energy Star window program, established by the U.S. Department of Energy and the U.S. Environmental Protection Agency. This new rating system guides builders and homeowners toward energy-efficient products.

BEVEL CLUSTER SERIES

3100 BC

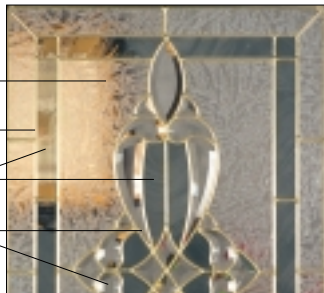

The beauty of our Bevel Cluster Series comes from the wonderful effect light has on the different styles of glass. When sunlight shines through it, each bevel within the cluster reflects light uniquely, creating a spectacular and artistic design for your entranceway.

PROTECTOR BREAKTHROUGH® RESISTANT GLASS

High Performing Benefits

- Remarkable Beauty and Security at a Great Price!
- Eliminates the need for shutters or blinds
- Dramatically reduces noise infiltration
- Prevents fading of carpets, furniture and drapery by blocking 99% of the UV light

Forced Entry Deterrent

- This laminated glass will deter burglaries
- Protects against storm damage
- Super security for patios
- Available in ALL Decorative Styles

Protector glass can not be broken through!

Ideal for Patio Lights

All glass products can be shattered after continuous impact, but these laminated decorative designs are break-through resistant.

The lamination holds the tempered glass in place, maintaining the security of the home and reducing the danger of serious injury or burglary.

Peace of Mind 24 hours a Day

Stops a .22 caliber bullet.

Blending technology and handcraftsmanship.

HURRICANE-RESISTANT IMPACT GLASS

- Impact Series doorlights are hurricane-resistant and meet Florida & Texas building codes, and must be tested in a complete entry door system
- Meets and exceeds large missile impact tests for hurricane building codes (Dade County, Florida Product Control Notice of Acceptance #97-0527.04)
- Peace of mind, 24 hours a day
- High-performing energy savings

INTERNAL MUNTINS

The Smart Homeowners Choice!

RSL internal muntin doorlights enhance the aesthetic appearance of insulated glass designs and are easy to maintain and clean. Internal muntins are grids sealed between tempered glass to look like separate panes. They are available in a range of colors, sizes and styles. They have a UV-stable finish that won't fade, discolor or scratch.

NEW injection molded internal muntins have a smooth white finish with no seam or joint lines. Available in a popular 13/16" profile, they also have higher insulating value.
