DECORATIVE ENTRYWAYS

DECORATIVE DOORLIGHTS • SIDELIGHTS • TRANSOMS
INTERNAL BLINDS • BREAKTHROUGH & HURRICANE RESISTANT

40 YEARS OF Quality by Design

We are extremely proud to be able to celebrate our fortieth anniversary as a successful family business. We have grown significantly since our humble beginnings and

today, as always, we are committed to providing the highest quality entryway products of doorlights, sidelights, and transoms. Our dedication to service has led us to establish regional warehouses in: Sacramento, Phoenix, Atlanta, and our newest location in Minneapolis. Our success has been a direct result of the talent and dedication of our employees and the support of our many customers!

Welcome to RSL's Decorative Catalog

We've organized our products by size to provide a fresh and convenient presentation of our decorative doorlights. In addition to a huge selection of our best selling decorative designs, we have added new sizes, nine new series, and a wonderful presentation of elegant homes to showcase the affect that a decorative entryway can have on a home. We have expanded the catalog to offer close-ups of each decorative series and added our clear glass doorlights. RSL also offers safety, beauty and privacy in a unique combination with Protector Breakthrough Resistant® and Impact Hurricane Resistant glass.

Our commitment to Quality by Design is supported by the building industry's best lifetime warranty. All RSL doorlight frames are Maintenance Free and will not warp, split, or yellow, and are storm door safe. These doorlight and sidelight frames can be painted or stained easily. Both clear glass and decorative injection molded products have a lifetime warranty against manufacturing defect.

Energy Efficient Option

RSL manufactures its own insulated Low-E (emissivity) glass in order to provide the greatest energy efficiency. Our Low-E insulated units combine one tempered pane with a high performance glass, made with a thin metallic coating that blocks heat flow. This superior Low-E glass increases a home's energy efficiency by reducing air conditioning costs in the summer and reducing heating costs in the winter. RSL has completed thermal performance testing for national building code compliance. The following results of clear and soft coated Low-E insulated 64" doorlights in steel doors meet and exceed NFRC and Energy Star standards.

	<u>IG</u>	<u>Low-E IG</u>
U Value (heat gain thru glass)	.38	.32
SHGC (solar heat gain coefficient)	.33	.21

(fiberglass doors or smaller doorlights provide improved values)

- Improves thermal efficiency by 71%
- Filters UV rays (reduces fabric fading)
- A proven energy saver

- *Energy Efficient*
- *99% UV-Resistance*
- *Dramatic Noise Reduction*
- *Added Security*
- *Clear Caming!*

RSL offers six decorative series that feature a resin panel instead of the traditional inner panels of untempered glass and caming - the new Tuscany, Grooved Elegance, Ornate Bevel, Asbury, Longport and Waterfall. We identify these as "Liquid Crystal" so that their unique qualities are more easily understood and appreciated.

Liquid Crystal doorlights are made by pouring a liquid resin into molds, capturing beautiful intricate designs with dazzling bevels and clear came lines.

It is this easy:

1. Choose a decorative style.
2. We will send you an 8 1/2" x 11" line art page.
3. Indicate which colors, patterns or caming option (brass or zinc) you want to substitute.

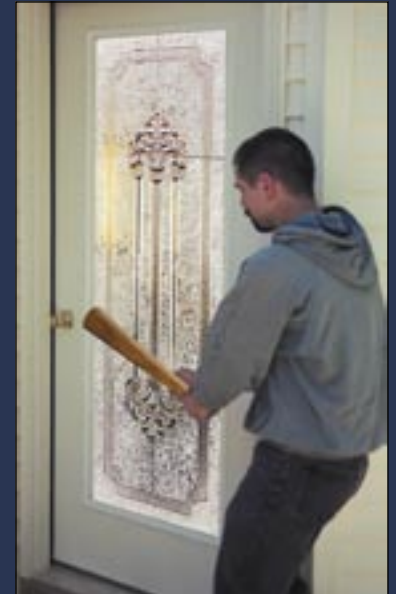

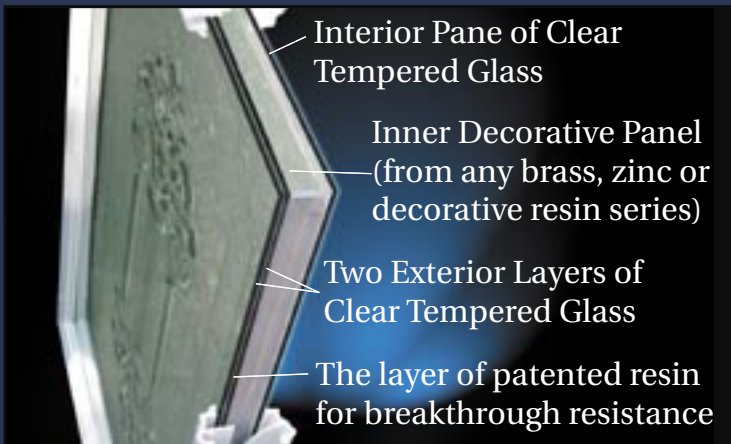

A small sample of custom doorlights — *anything is possible!*

Protector

Breakthrough Resistant® Glass

- Forced entry deterrent
- Protects against storm damage
- Even if the exterior pane shatters, the unit still resists penetration
- Any brass, zinc or decorative resin doorlight can have the Protector Breakthrough Resistant® feature added.
- “Breakthrough Resistant” is a registered trademark of Glasslam NGI

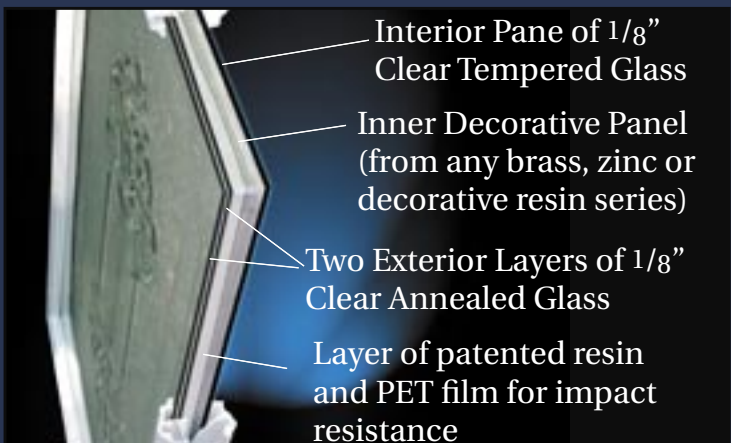

Ideal for Patio Lights

All glass products can be shattered after continuous impact, but these laminated units hold the tempered glass in place, maintaining a home's security.

Impact

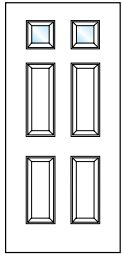

Hurricane-Resistant Glass

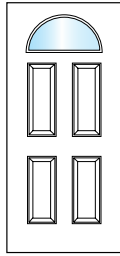

- Impact Series doorlights are hurricane-resistant and meet Florida & Texas building codes, and must be tested in a complete entry door system
- Meets and exceeds large missile impact tests for hurricane building codes (Dade County, Florida Product Control Notice of Acceptance #97-0527.04)
- Peace of mind, 24 hours a day
- High-performing energy savings
- Uses Safety Plus, a registered trademark of Glasslam NGI

In 1964 RSL began a tradition of manufacturing doorlights with exceptional attention to product quality and customer service. Today we are extremely proud to be able to continue that reputation of excellence!

We understand that homeowners value privacy, beauty and security at their front door... so, we have created a wide selection of elegant decorative doorlights, sidelights, and transoms. Our craftsmen blend pride, technology, creativity and manufacturing precision to offer customers around the world the most attractive and energy efficient doorlights possible.

Quality by
Design

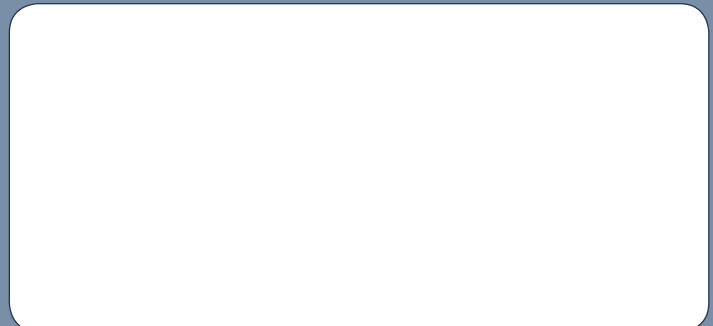

**Designs of impeccable artistic expression,
make RSL the logical source to bring beauty and distinction to your home's entryway.**
